

Attention residents of Harrison Township of Pickaway County, Harrison Township Trustees and Harrison Townships Zoning Committee would like to form a Design Review Board. This Design Review board or DRB would like residents that wish to help and contribute to the maintenance and preservation of Harrison Townships agricultural roots and heritage with creating guidelines for exterior projects regarding warehouse construction in and around the Rickenbacker Business District.

What will the Design Review Board consist of? The DRB will have a committee of 5 to 7 people. With 2 of the members, one being from the Zoning Board and one of the zoning appeals which have prior knowledge of our current zoning regulations. The other 3 to 5 volunteer members should consist of residents of the township with good intentions for expansion but also care about preservation. The DRB will meet monthly to create a guideline for future warehouses that wish to be part of the Rickenbacker Business District. As well as go over the existing guidelines that are currently in place. After the guidelines are created, they will meet on an as needed basis. The meeting of the DRB will not be a public hearing/meeting as it is an advisory board and not a board that will pass zoning memorandums, as that is the duty of Harrison Township Trustees. The DRB will advise new applicants on what the residents would like to see in development. All applications will be given to the board by the Harrison Township Zoning Inspector.

All applications for the Design Review Board will need to be submitted by May 30th, 2022. All applicants will then be reviewed by Harrison Township Trustees and be notified once they have made their decisions. If there are any questions of this board, please feel free to contact tee James Deal 740-412-5241, Jared Conner 740-500-2556
